Dr Simon Shaw

LEGAL AND EXPERT WITNESS REPORTS

- Neurorehabilitation following traumatic brain injury of any cause,
- Complex musculoskeletal Rehabilitation
- Paediatric Neurorehabilitation
- Prescription of multidisciplinary rehabilitation and prognosis

Experienced in both adult and paediatric rehabilitation of all ages. Provides a detailed assessment of a patient's care from medical, surgical and specialist rehabilitation for expertise in both neurologic and musculoskeletal rehabilitation (medicine).

My reports aim not only to be concise, clear and timely but also to provide the court with greater understanding and insight into optimising a patient's journey to recovery, independence and quality of life.

Conscientious by nature, I cover every aspect of client's condition or case.
