- 2007: Acting as an Expert Witness (British Society of Rehabilitation Medicine course)
- 2017: Medico-Legal Reporting (Irwin Mitchell)

Dr Lloyd Bradley

AREAS OF SPECIALTY INTEREST

Acquired Brain Injury (Including Stroke)

Rehabilitation: I am involved with the assessment and management of patients from an early acute stage within the intensive care environment through inpatient specialist rehabilitation to longer term community and vocational settings. This involves working with different multidisciplinary teams across a range of healthcare providers and higher level negotiation with commissioners and service managers. I have published academic work on outcomes and treatment strategies within this area and have led regional teams in service oversight and delivery.

Spasticity Management: I lead a specialist service delivering pharmacological and physical interventions, including botulinum toxin injections and intrathecal baclofen, and supervise and train therapy practitioners. I have published in peer reviewed journals and presented at national conferences on spasticity management.

Chronic Neurological Disease: Having a large clinical commitment to patients with a variety of acquired and congenital neurological conditions, I am closely involved with the disease management and symptom control of multiple sclerosis, peripheral neuropathies, neuromuscular diseases, metabolic and degenerative diseases both in secondary care and community services. I am a clinical advisor to NICE committees around these areas.

Young Adults with Complex Disability: I have developed transitional services locally and am on the national steering committee for the development of services for young adults and adolescents.

OTHER ROLES

- Steering Committee Member Sussex Acquired Brain Injury Forum (2009 – 2012)
- Rehabilitation lead for the Western Sussex Hospitals trauma group
- NICE committee member – guideline for the management of cerebral palsy in adults
- NICE committee member – guideline for the management of multiple sclerosis
- Clinical advisor for NCEPOD study on transition of care
- Honorary Senior Clinical Lecturer, King's College London.
- Clinical Lead Sussex Rehabilitation and Reablement Network 2012-2013
- Executive Committee Member, British Society of Rehabilitation Medicine 2014 – 2019
- Honorary Deputy Secretary, British Society of Rehabilitation Medicine 2015 - 2019

RESEARCH PUBLICATIONS

Thirteen peer-reviewed articles since 2003; seven as first author: including work on spasticity management, brain injury rehabilitation and chronic neurological disease in a range of journals including Brain Injury, Disability and Rehabilitation, Archives of Physical Medicine and Rehabilitation and The British Journal of Neurosurgery.

Five poster and one platform presentation at British Society of Rehabilitation (2005 – 2018)

Two poster presentations at Society for Research in Rehabilitation (2008-2012)

Three Pposter and one platform presentation at the National ITB Forum (2012-2015)
