MEDICO-LEGAL EXPERIENCE

Dr Vivek Nadarajan has been providing expert witness services since 2019, specialising in clinical negligence and personal injury cases involving TIA, ischaemic stroke, and intracerebral haemorrhage. He has completed the Bond Solon Excellence in Report Writing course (2018), and is experienced in preparing clear, well-reasoned reports that address breach of duty, causation, condition, and prognosis. With hands-on expertise in hyperacute stroke management, including thrombolysis and thrombectomy, Dr Nadarajan brings practical insight and analytical clarity to complex neurovascular cases.

SPECIAL INTERESTS

- Acute stroke/ TIA diagnosis and management
- Stroke thrombolysis and thrombectomy
- Stroke complication management (e.g. aspiration pneumonia, haemorrhagic transformation)
- TIA risk stratification and mimics
- Functional impact and recovery prediction
- Stroke aetiology, secondary prevention and long-term follow-up

MEMBERSHIPS

- GMC #6101632
- Fellow of the Royal College of Physicians
- Member of British Association of Stroke Physicians
 - Trainees Committee RCP Representative
- Member of the British Geriatrics Society
 - Trainees Council Finance Rep

Dr Vivek Nadarajan
