### ABOUT DR GOODY

Dr Alex Goody is a Consultant Clinical Neuropsychologist with over 30 years' experience as an expert witness, having provided expert neuropsychology reports for the courts since 1993.

Her medico-legal practice covers adult neurological illness and injury, with particular expertise in acquired brain injury, traumatic brain injury and the neuropsychiatric consequences of neurological conditions. Dr Goody is instructed in personal injury claims, medical negligence cases and family proceedings, bringing longstanding clinical and expert witness experience to complex neuropsychological matters.

Dr Goody also undertakes Mental Capacity assessments across a range of issues, including capacity to conduct litigation, manage financial affairs, make health and care decisions, consent to sexual relations and marry.

She is instructed by both claimant and defendant lawyers, with an approximate claimant to defendant split of 80:20. Dr Goody has provided oral evidence to the Court on three occasions.
