MEMBERSHIPS OF PROFESSIONAL BODIES

- Fellow of the Royal College of Surgeons (England) – FRCS (Vasc)
- General Medical Council
- Medical Defence Union
- British Medical Association
- Vascular Society of Great Britain and Ireland

ABOUT MR ORMESHER

Mr David Ormesher is a Consultant Vascular and Endovascular Surgeon with extensive NHS and private practice experience across the North West of England. His clinical expertise covers arterial and venous disease, aortic aneurysms, critical limb ischaemia, diabetic foot disease, vascular trauma, haemorrhage, vascular access and endovascular procedures.

He is an experienced vascular surgery expert witness who accepts personal injury and clinical negligence instructions from claimant and defendant solicitors. He prepares 60 to 80 reports each year, with an approximate instruction split of 75% claimant and 25% defendant. His work includes screening, breach of duty and causation, and condition and prognosis reports, including reports for high-value clinical negligence claims. He also works with clients who are claiming compensation from the Ministry of Defence for non-freezing cold injuries.

Mr Ormesher completed the Bond Solon Civil Procedure Rules Certificate and Expert Report Writing Certificate in 2024. His training includes the British Medical Experts Medico-Legal Mentorship Programme and ongoing CPD in causation analysis and surgical negligence. He has prepared joint statements, given oral evidence under oath and produces clearly reasoned reports that comply with CPR Part 35.

CV

TEACHING & TRAINING

Mr Ormesher is actively involved in postgraduate surgical education and trainee supervision. He contributes to regional FRCS (Vascular) revision programmes, Royal College of Surgeons Basic Surgical Skills Courses, and the North West Vascular Training Scheme.

Awards:

- Student-Led Teaching Excellence Award (Sector Wide) – University of Manchester, 2021
- Nominated for Student-Led Teacher Award (Sector Wide) – University of Manchester, 2013

RESEARCH & ACADEMIC PROFILE

Mr Ormesher maintains an active academic role through his NIHR Principal Investigator position. His research focuses on aneurysmal disease, vascular outcomes, venous thromboembolism, and cardiovascular health. He has led or contributed to national and international research collaborations, including UK-COMPASS, THRIVE, and PLACEMENT.

Current NIHR Studies:

- THRIVE – venous thromboembolism after varicose vein surgery (actively recruiting)
- PLACEMENT – pain management after lower limb amputation (actively recruiting)
